## WE FIGHT 941 TAX EXCLUSIVELY!!

*We only handle employment tax cases.* If you were going into a hospital for heart surgery, you wouldn't want a general practitioner working on your heart – would you? If you seriously injured your knee in a game of tennis, you wouldn't want a family doctor operating on your knee, would you?

***OF COURSE NOT!***

**YOU WOULD HIRE AN EXPERT!**

You would have an orthopedic doctor examine and diagnose your knee. Better yet, you would have an orthopedic surgeon that specializes in knee injuries operate on your knee! You would decide to get the ***best available*** physician to take care of your injury.

Why? The answer is simple.

First, you would not want some doctor ***practicing*** on you, using your case to learn his trade (which can translate into higher fees passed onto you)!

Secondly, because unusual issues can pop-up in surgery, you want a physician that is well-versed with all the pitfalls and surprises that can occur in surgery that are unpredictable.

**You should be just as careful when you choose a professional to fight your 941 tax!**

There are no two knees exactly alike. The same goes for your tax case. ***There are no two 941 tax cases exactly alike.*** If you are serious about bringing your 941 tax issues to a favorable conclusion, you need to start ***RIGHT NOW.***

**DO NOT HIRE A GENERAL “TAX PROFESSIONAL”**

Many of the tax attorneys working in the Chicagoland area have been taught by me. I teach IRS tax collection matters in the graduate program at a prestigious Chicago law school. They pay thousands to attend my classes because they know there is no substitute for my knowledge and experience.

## WHY HIRE THE STUDENT WHEN YOU CAN HIRE THE TEACHER?

I have taught lawyers the subtleties, tricks of the trade, and successful negotiating techniques to use when battling the IRS. In fact, *many of our tax clients are attorneys and accountants that are in the same boat as you.*

Wouldn't you like to know who your heart specialist would use for his or her own by-pass surgery? We have represented attorneys (yes, I said attorneys!) and accountants in 941 tax issues for almost 20 years!

### WHO ELSE WANTS PEACE OF MIND?

We all want and need peace of mind, but it is hard to achieve this with tax debt hanging over your head like a dark cloud. ***Call me right now and rest assured:***

- Your bank accounts will not be levied.
- You will save the money in your business accounts.
- You will **save your retirement savings**.
- You will grow your business without fear of losing everything to the IRS!
- You will finally release that anger that builds up from fighting the IRS for years.
- Revenue officers will not embarrass you by showing up at your front door to shut down your business.

### IF YOU TAKE ACTION NOW, YOU CAN SLEEP WELL TONIGHT!!

You will get peace of mind once you have a **plan** to solve your 941 tax matter.

It is not that complicated. *Living with the unknown is very uncomfortable and unsettling.* Knowledge is power, and you owe it to yourself to get the knowledge and representation necessary to solve this tax problem.

You will use us as an advisor, counselor, expert, advocate, and bulldog representative.

If the IRS wants to fight, *we will fight*. We do not have a personal vendetta. I am confident you have been contacted by many other attorneys, accountants, and other "advocate" organizations claiming they can help you with your tax problem! **Buyer Beware.** *Investigate, investigate, and investigate.*

Are they local? Can they go face-to-face with the IRS?

Are they a franchise? Will the founding partner be personally supervising the case?

Are they a Colorado or California outfit that claims they can "Get you off the hook, for pennies on the dollar"?

We have heard all the rhetoric from the pretenders. Separate fact from fiction.

## **IT IS TIME TO START WORKING FOR YOURSELF AGAIN!!**

Forget the money you couldn't make, and forget about all the orders you haven't taken, because of the IRS 941 tax debt. All of this will change, and you will start working for you, and your family's best interest again! Let's work together to get rid of the IRS dark cloud and let's start cranking up your business again!

<b>IRS Levies?</b>	Not after we're hired!!
<b>IRS Liens?</b>	They are tough, but let's get the tax debt resolved, and the lien will go away!
<b>Innocent Spouse?</b>	Tell me more – we can use the innocent spouse defense, if it applies, to completely walk away from the IRS debt.
<b>Penalty Abatement</b>	You bet! If the facts fit, let's eliminate the penalties.
<b>Offer in Compromise?</b>	Most cases start with a comprehensive Offer in Compromise analysis.
<b>Still in Business?</b>	I hope so! You can still file an Offer in Compromise. Do not wait until you are flat broke and bankrupt to get tax relief.

### **THE DIFFERENCE IS IN THE APPROACH!**

We are teachers, lecturers, and problem solvers and we just DO IT! We do what we preach and teach. What better combination is there? We are relentless and thorough. I am not just some Ivory Tower professor of law! I have been practicing law since 1989 and fighting for taxpayers since before I was an attorney! Our approach is no nonsense and honest. We will tell you the candid truth about your case, and not sugar coat the downside or promise you some ridiculously unachievable result. If we cannot help you, we will tell you that up front, and not accept your case, and charge you nothing. We do not want to waste your time or ours.

### **IF YOU SIGN THE CHECKS, YOU COULD BE PERSONALLY LIABLE**

What?!?! Personally liable? What about the corporate shield? Why did I incorporate?

Employment taxes that have been withheld from your employee's paychecks may be your personally liability. At this stage, do not rely on the business to protect your personal assets.

I see this all the time. The actions you take now could be critical in avoiding personal liability for your business tax debt. The IRS can pierce the corporate veil and assess "responsible officers" for the liabilities.

If that happens, the IRS can seize your personal possessions, you cars, your home, and garnish your own personal bank account!
